Wachauer Rieden seit 893 AD

### Weingut Müller

The family run Müller winery is located in the picturesque wine village Krustetten in the southern Kremstal and is managed by the brothers Leopold and Stefan Müller. In addition to their 110 ha of vineyards in the southern Kremstal, the two brothers cultivate 10 ha of Wachau top sites since 2008. These are the property of Kremsmünster Abbey, which was founded in 777 AD by Duke of Bavaria Tassilo III and has been cultivating vines in the Wachau since 893 AD.

### Origin and Terroir

The grapes originate from our sustainable managed vineyards site Alte Point in the Wachau. This single vineyard is located in the south-eastern part of the Wachau wine region between the Roman village of Mautern and the Göttweig Abbey. This location's warm climate and heat-preserving Danube gravel layer promotes early maturation of the grapes and produces spicy wines with depth and finesse.

### Wine Making

Only fully matured grapes were harvested and gently processed. First fining to the must was completed before a temperature-controlled fermentation took place in steel tanks. The wine was racked from the tank and allowed to develop its full aroma on the fine lees for a short period before being bottled.

### Wine Description

Light green-yellow in the glass, opens up in the nose with a wide range of different fruit aromas including grapefruit but also tones of garden herbs and excellent minerals. The palate is spoiled by a beautiful distinction and finesse, delicate nuances of apples and pears in the finish.

alcohol: 12,5 %vol  
residual sugar: 1,7 g/l – dry  
acidity: 4,8 g/l

### Drink and Meal Recommendation

Stored best at 8 bis 10° C  
Aging potential: 3 to 5 years

A perfect companion to hearty meat dishes like 'Wiener Schnitzel' (breaded veal) or stew. Also by the glass without food pairing this Grüner Veltliner will not disappoint.
